Founder – Growth Scraper

Helping Professionals Grow

Hi there,

I'm Ramkumar, Founder of Growth Scraper, a growth agency helping brands scale through strategic digital solutions.

With 8+ years of experience, I've worked with startups and global clients on 75+ SEO projects, solving real business problems through search.

Teaching is my passion. I've trained 125+ students and I believe anyone with clarity and the right system can think like an SEO professional and execute with confidence.

This program is built from the same frameworks, audits, and execution models we use for live client projects, not theory or outdated tactics. My goal is simple: to help you think like an SEO professional, execute with clarity, and become job or client ready

Why SEO is Still the Most In-Demand Digital Skill

70% of all online purchase journeys start on Google.

Startups and D2C brands are hiring SEO talent rapidly.

Entry-level SEO roles in India pay ₹3 to 6 LPA.

Freelancers earn ₹20K+ or more per SEO project.

AI is changing SEO. Not replacing it. [We teach both.](#)
